Response Required By**Information Requested**

On page 158 of the plans for Bridge # 16 the detail of the Piles shows a steel pile plate 1" x 14" x 14" and refers you to Note 2 which calls for a steel plate 1"x16"x16" . Could you please clarify as to which size plate is intened to be used. If you have any questions please contact us here at Schultz.
